

ePaylink Guidebook

THAIEPAY

A guidebook for getting started with THAIEPAY system
an online payment gateway system which is trusted by
many stores.
(English Version)

[How to get started
with ePaylink]

How to get started with ePaylink

After your store has been completely approved by THAIEPAY, you can access control panel system to manage your account with THAIEPAY. The system allows you to view all orders from buyers, update news, income, daily exchange rates, cancel or refund payments, and more.

1. Check and rectify your information at menu "MERCHANT"

Firstly, you must check the correctness of your personal details, including bank account which is used in receiving income from THAIEPAY. If you found any mistakes or wrong details, you can edit from the sub menus, "**Edit Merchant Details**" or "**Edit Bank Account Details**". After edited, THAIEPAY staff will process the change from you afterward.

2. Connect THAIEPAY system at menu "SYSTEM"

After checked information, you can start connecting THAIEPAY system with your website instantly. You must begin with the sub menus, "**System Connection**" and "**Return Parameter**". You need to learn more details about ePaylink system and how to connect from "**System Connection Guidebook**". (About sub menus, **Logo & Interface**, **Custom Theme**, or **Advance Theme**, you can edit later)

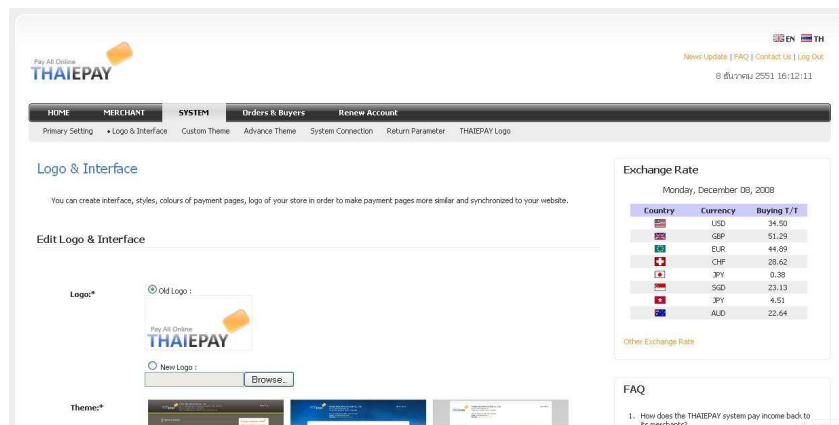

3. Test the connection of payment process between THAIEPAY and your Website

After connected, you can test the payment process. When it comes to payment page, you can fill the details of **Dummy Card** in the required boxes. (Test Card is provided in "System Connection Guidebook".) If the systems are connected correctly, it will appear **"Thank You!! Your payment has been completed"**.

4. Other settings

The main purpose of using THAIEPAY is to offer payment gateway to buyers and allow them to pay online by credit cards. Therefore, after systems are connected successfully, you can manage other settings for your account such as **"Logo & Interface, SMS Alert for Payment Received, and SMS Alert for Renewal"**.

5. Learn more about Main Menus and Sub Menus

THAIEPAY also provided many menus to support all your needs and convenience. You can learn more and get familiar with main menus and sub menus yourself. There will be short descriptions of each main menu and sub menu for you to read first. If there are any unclear details or you did some mistakes in the system, you can contact THAIEPAY directly for instructions, and suggests.
